# IASOR

INTERNATIONAL ASSOCIATION FOR  
THE SCIENCE OF REINCARNATION

## **Colleges and Universities Membership – Free**

IASOR supports studies into the science of reincarnation and is actively seeking programs wishing to do studies that IASOR can help fund. Specifically IASOR is looking to do studies linking different disciplines of this science. We are looking for odds against chance studies comparing different or similar data points within different databases. We are also looking for universities or students to contribute time to translate some studies into their native language. We need Farsi, and Pashtun translators.

## **Organizational/Corporate Membership – \$200**

This listing is for those corporations organizations looking to reach our member base.

## **Service Provider Corporate/Organizational Membership – \$500**

This is the set up charge to put your business or organization into our system co brokering goods and services. We are offering the marketplace so a company that makes and markets massage oils and massage therapies can access the database of the company or organization who provides nursing services. This common database will include books, requests for funding to do specific studies, requests for support doing and managing those studies and a variety of other ways for the members to market their goods and services globally through this network as well as find goods and services to market in their local area. Charges additional to the individual set up charge as above would be things like landing pages so your website can access our marketplace and design and select from what the other members offer.
